

# QUALITY CLEANING SOLUTIONS

**LABOR SAVINGS** — Remove the most difficult, time-consuming part of the clean-up routine and save staff hours. Our Soak Tank System requires no scrubbing or scraping! After soaking pots and pans, simply rinse and sanitize in your sink. ISM service technicians change your cleaning solution and clean your tank regularly to keep your system running at peak efficiency, no matter how much cleaning you do.

**COST SAVINGS** — The Soak Tank System reduces labor expenses, keeps utensils working instead of waiting, extends the useful life of equipment and materials, and results in substantial savings on cleaning materials.

**ALWAYS ON THE JOB** — The Integrated Sanitation Management Soak Tank System is always there when you need it. Think of it as a trusted and reliable employee who is always ready to clean.

**MULTI-USE** — The ISM system quickly cleans grease filters, utensils and equipment. Soak everything from roaster racks, burner elements and charbroil grates to fryer baskets and cookware that's too greasy for the dish machine.

**SELF-CONTAINED SYSTEM** — Our Soaking System includes a tough, polyurethane tub and our special soaking solution (a non-flammable, odorless, biodegradable, alkaline cleanser) that meets USDA guidelines for food service use. Mounted on casters, to be moved easily to wherever you need it, the system does not tie up your sink or expensive equipment.

**IMPROVES FOOD QUALITY** — Because the system removes baked-on grease and carbon build-up that can cause uneven heat distribution, food prepared in Soaking System cleaned pots cooks properly and tastes better.

**REUSABLE** — Since the solution stays in its own tank, there's no need to discard it after soaking. The same solution continues cleaning right up to the next scheduled service call.

**SAFE AND EASY TO USE** — An ISM technician changes and mixes your solution, so you don't have to worry about accidents, misuse or product waste. We make sure the strength of your solution is right every time.

**QUALITY. SERVICE.  
CONVENIENCE.**

Put the flavor back into your most popular menu items and spice up your bottom line. ISM's Soak Tank Service takes the elbow grease out of scrubbing pots and pans.
